

## **INTERNSHIPS & SCHOLARSHIPS**

### Internships

The Board has traditionally offered non-paid short-term internships usually centered around assistance at one of the annual events sponsored by the CAO, typically for 2-4 students, majoring in aviation, airports or aerospace.

If interested in doing a short-term internship, please contact one of the Board members or the Business Manager

Internships are dependent upon available funds in the CAO budget.

### Scholarships

Since the 2017 CAO budget was approved the Board funded and adopted a small scholarship program designed specifically as an incentive to attract new-potential CAO members. These funds are designed as a one-time usage and can be used for an annual membership, conference registration or training programs. All scholarship requests shall be approved by the Board. Scholarships are available for Colorado Airports and the Corporate/Business entities that have a desire to become a permanent CAO member.

If interested in a scholarship, please contact one of the Board members or the Business Manager. Scholarship requests must be in written form.
