Colorado Airport Operators Association

TRAINING PROGRAMS

General

Periodically the Board will provide the opportunity and (partial or full) funding for airport/aviation training programs, for the benefit of CAOA members. This training is dependent upon funds available and the overall demand for various training programs that are available.

A partial list of past training programs sponsored by the CAOA Board:

In association with AAAE: ACE, Basic and Advanced ASOS, Security

Board or Airport Sponsored: Airfield Lighting, Airfield Marking(s), Emergency Preparedness

The Board would like to hear from the Membership as to what training programs they should be planning for in the future. Note, training programs usually need to be planned up to a year out, from the training date. Please contact any of the Board members, the Business Manager or e-mail requests to the CAOA.
